# R --- Drudge!

a drudge. There was no help

ARE STILL DRUDGES. BUT

## *ELECTRICITY The Modern Servant*

has knocked the drudgery out of housework wherever it has been given an opportunity. Always on tap, always "a-rearing to go," electricity today is adding years of brightness and happiness to countless thousands of housewives who have taken the trouble to find out just what electricity can do in the home.

Electric rates are so low today that even in homes of the most modest incomes electrical servants can be used to relieve the housewife of untold hours of drudgery and discomfort and to make the home more livable for the entire family.

**Total Population of Greater Hickory, 19,000  
 Including Windy City, Longview, Brookford**

Greater Hickory is an Industrial center, known as the Hub of the Piedmont Industrial section of Western North Carolina.

The Products of the Manufacturing Plants consist chiefly of Textiles, Hosiery, Furniture, Woodenware, and many other items.

The growth of Greater Hickory has been rapid even during the depression which has not been very noticeable in this section, partly due to the ever increasing development of the various industries.

Greater Hickory is situated on the gateway to the Land of the Sky. While it is on the edge of the great Piedmont Plateau, it is within easy distance of the Mountains. Blowing Rock, "The Famous

Resort," is only 45 minutes drive over hardsurface road with beautiful mountain scenery on the way. Blowing Rock has an elevation of 4,500 feet above sea level and 3,300 feet above Greater Hickory.

Hickory is located in Catawba County, known to be one of the leading counties in western North Carolina for agriculture, cattle, poultry and dairies, with a climate that is fine the year round. It is also prosperous in all lines of farming. The best indications of this is that nearly all farmers own their own homes.
